and commercial elevators

**ORION**

**A LIFE-CHANGING  
& VALUE-ADDING  
INVESTMENT**

# ORION

**ACCESSIBLE, STYLISH &  
LUXURIOUS SINCE 1995**

The largest lift available from Aussie Lifts, Orion provides a gentle and reliable ride.

With an impressive array of safety features and reduced construction costs, it's ideal for education and community organisations.

With lifts installed in over 5000 locations Australia-wide, you can be rest assured of the highest quality and guidance every step of the way.

To put your mind at ease, we offer a detailed lift consultancy service to identify and customise the best product fit for you.

# AUSSIE LIFTS PROMISE

## AUSTRALIAN DESIGNED AND MADE

Our low-maintenance lifts are designed and built locally to the highest standards. As one of the few non-importers in the market, every model exceeds Australian Standards (Part 12, 14, 16, 17 and 18) and is BCA compliant (BCA E3.3 & E3.6) for disability access.

## FAST AND PROFESSIONAL

An Aussie Lift is manufactured, delivered and installed three times faster than imports. We can have your product to you from eight weeks, compared to the 26-week turnaround of competitors.

## LEADING WARRANTY AND LOCAL SUPPORT

Our quality guarantees are second to none in the industry. If you ever do need replacement parts, they're available right here – minimising downtime and delays, compared to waiting for components from overseas.

## COST-EFFECTIVE AND SIMPLE

Every Aussie Lift has low installation, maintenance and running costs – with just annual servicing required. They also don't need load-bearing walls or machine rooms, which makes them suitable for more homes.

# ORION OPTIONS

## CHOOSE THE RIGHT ELEMENTS FOR YOUR LIFT

A selection of customisable options are available for the Orion Lift.

Discuss these possibilities with your sales representative.

### EXAMPLE

### SAFETY FEATURES

Supplied with an impressive list of standard safety features, the Orion offers peace of mind with its in-car emergency telephone, emergency battery backup lowering system and lighting. On top of that, the Orion has a very easy to use manual lowering valve, should the lift car ever need to be lowered.

### PIECE OF MIND

Manufactured by a family owned and operated company. Australian made to Australian Standards. Built to superior specifications using quality materials. Warranty on parts and labour. Lift delivered, installed & tested by qualified lift technicians. Custom built to your specification. Lift shaft can be finished to match existing architecture. Unrivalled after-sales service.

### INSTALLATION

Supplied assembled & pretested, the design of the Orion allows for easy installation by either craning in, dismantling or maneuvering into place. Able to be installed within 3 - 4 days, the Orion is perfect for new or existing buildings as time on site is minimal.

### COST EFFECTIVE

Self-supporting lift tower - no load bearing lift shaft walls required. No separate machine room construction required. Only 150mm pit depth. Low installation / construction costs. Low running costs / power consumption. Bi - Annual maintenance. Suitable for internal or external installation.

### MAINTENANCE

For optimum performance, reliability, and long term use, the lift should be serviced every 6 - 12 months by an approved lift technician.

### CUSTOMISATIONS

Each lift is custom designed and constructed to your requirements with an impressive list of options available including: Automatic door operators; Voice Control of the lift; Access Control security features; Flood switch sensors for flood zones; and door options to match your existing property.
